Egyptian Cotton Breeding, Bureau of Plant Industry
U. S. Department of Agriculture

MAY 14 1933

The information contained in this News Letter is drawn mainly from newspapers and trade journals, the published source of the information being given in every case. The object of the letter is to furnish information to officials and cooperators of the Department of Agriculture in regard to the condition of the market for long staple cotton. The Department assumes no responsibility for the accuracy and reliability of these quoted statements, and under no circumstances should they be republished as having been issued by the Department of Agriculture.

LONG STAPLE COTTON MARKET CONDITIONS

The New Bedford Sunday Standard Times of May 8 states as follows:

"Continued inactivity featured extra staple cotton markets here and in other New England centers during the past week, and prices again were said to be 'nominally unchanged.' Actually there were no very stable prices available for trading was so nearly at a standstill that most cotton shippers did not bother to furnish up-to-date quotations, but allowed the previous week's figures to stand unchanged.

May 6	384,000 "	225,000 "	275,000 "

THE NEW CROP IN EGYPT

"Cotton" of Manchester, issue of April 23, 1938, contains the following dispatch from the Societe Cotonniere d'Egypte, of Alexandria, dated April 14:

Temperatures were again variable; nights, however, continue very cold for the time of the year.

The heaviest resowing was prevalent in early sown fields, whilst this was not necessary to the same extent in late sown fields. Early plants are thus very rare, but, on the whole, the plant is far from last year's aspect in its early stages.

LONG STAPLE COTTON MARKET CONDITIONS

The New Bedford Sunday Standard-Times of May 22 states as follows:

"Due to the increased curtailment in New England cotton mills, raw cotton supplies on hand have lasted much longer than usual and replenishment in most cases has been unnecessary. In fact, some mills have sought to reduce the reserve supplies of raw cotton in their warehouses by offering to resell at prices slightly under the current market levels.

* * *

"Current quotations for prompt shipment cotton classed on government standards are nominally quoted, FOB New Bedford, based on July futures, as follows for strict low middling, for middling and for strict middling, respectively:

* * *

Inch and 1/8th - 250 to 300; 350 to 400; 450 to 500.
Inch and 3/16ths - 425 to 500; 550 to 625; 700 to 775.
Inch and 1/4th - 600 to 650; 750 to 800; 925 to 1000."
